General Information

Our History

The story begins, so it is told, in the early half of the 20th century when “a young man on horseback scaled the heights near Cloudcroft and climbed the Wofford fire lookout tower to gain a panoramic view of ‘The Land of Enchantment.’ In prayerful meditation, while aloft, the youth was inspired to beseech God to give him New Mexico for Christian education.” Through the intervening years, we are told, “God made this young man ready to help answer his own prayer.”

That young man was B. Clarence Evans, and he was the founder and first president of what was to eventually become University of the Southwest.

And so, after many prayers and dreams and plans, Clarence Evans finally saw his “College for Christian education” become a reality. In facilities rented from the Hardin Hotel at 111 North Dalmont in downtown Hobbs, Hobbs Baptist College was chartered as a two-year junior University in 1956, and changed to New Mexico Baptist College when the school became a four-year University in 1958.

Within a few years, however, it became apparent that the College had grown beyond the original design, and the move to a larger, permanent location became a motivating force. By 1961, the present site north of Hobbs on the Lovington highway was obtained.

In 1962, to reflect the expanded vision of the entire community that had now embraced this fledgling institution as their own, College of the Southwest was founded as an independent, non-denominational, four- year liberal arts college to serve the southeastern New Mexico and West Texas region, an approximately 21,000 square-mile service area.

Of the changes, Dr. Nell McLeroy, president from 1960-1964, stated, “This marks a milestone in the realization of our aspirations to attain an expanded program and build a college to properly serve the vital need for higher education for this section of the Southwest. We shall plan a program and curriculum for all prospective students, regardless of color, creed, or faith. We shall maintain a true Christian college and recognize that our University was originally founded by a Christian leader on a faith that we shall carry on.” Under the leadership of President Gary

Dr. Quint Thurman, the University President, has begun the transformation from a commuter college of primarily non-traditional students to a residential campus that will eventually house approximately 50% of the student population. University of the Southwest currently serves a student population of approximately 400 students, with plans in progress to grow.

Our Mission

University of the Southwest is a Christ-centered educational community dedicated to developing men and women for a lifetime of servant leadership by emphasizing individual faith, responsibility, and initiative.

- Teaching at University of the Southwest adheres to belief in God, in the Bible as the inspired Word of God, in Jesus Christ as the Son of God, and in the separation of church and state.
- University of the Southwest strives for excellence in academic curriculum, campus life programming, and student activities in a supportive educational community where freedom of thought and expression is honored and the demonstration of faith in acts of service is encouraged;
- At University of the Southwest, students are instructed and mentored by a faculty and staff who demonstrate Christ-centered values and maintain an environment where students can live and work cooperatively, valuing the multiple cultures from which they come; and
- As a community of initiative, University of the Southwest challenges graduates to become enterprising members of our society contributing to the common good by advocating and participating in the productive commerce of free enterprise, the constitutional privilege of self-government, and the practical contributions of community service.

Honor Code

Members of our community are encouraged and expected to live by standards which uphold an honorable lifestyle. In our attempt to encourage each student to understand and experience a community that honors the Christ-centered principles upon which University of the Southwest was founded, the faculty, staff and administration at USW will mentor all students to live a virtuous life. Though we are not all members of established congregations, as a community we work to hold each other accountable as we follow the teachings of Christ.

The values that guide the USW community are listed:

- Faith
- Initiative
- Responsibility
- Exercising Servant Leadership

Authority, Scope and Interpretation of the Honor Code

The Honor Code is established under the authority of the Office of the President at USW, in conjunction with the staff in the Offices of Student Life and Housing. Generally, the Code governs and regulates Student conduct that occurs on the University's campus or any building or property owned or used by the University in connection with its educational and other programs; or student conduct that occurs off-campus that is disruptive, harmful, poses a reasonable concern for the safety and well-being of students, faculty and/or staff, or that otherwise is harmful to the University's purposes, mission and objectives.

The Student Honor Code regulates off-campus Student conduct to promote and reinforce the following values and University goals:

- To prevent and reduce behavior that undermines student academic success and that negatively detracts from the educational mission of the University
- To promote and protect the health and safety of students and other University community members
- To provide timely intervention, support, and resources to those who may be struggling with substance abuse/addiction or other psychological issues
- To address student conduct and activities that clearly conflict with the University's interests and mission

The Supervisor of Student Life & Housing and the members of the Honor Board, with the assistance of the Director of Student Life, if needed, will determine if an off-campus incident involves student conduct that falls within the scope of the Honor Code.

The Supervisor of Student Life & Housing and the Honor Board have the responsibility and authority to interpret the Honor Code, with the assistance of the Director Student Life, as needed.

Honor Board

The Honor Board is comprised of members of the USW community tasked with interpreting and upholding the Honor Code. The Honor Board is comprised of three staff or faculty members, and two at-large student members selected by the Director of Student Life. The Honor Board works in conjunction with the Supervisor of Student Life & Housing, the Director of Student Life, and the Director of Housing to insure campus community standards are maintained.

Violations of the Law and Code

Violations of University policy, rules or regulations, or federal, state, or local laws may result in a violation of the Honor Code. Student Conduct Proceedings will generally proceed even if the conduct also results in action initiated by federal, state, or local law enforcement officials, or a private party, based on the same conduct, and the resolution of Student Conduct Proceedings will not be delayed or be dependent upon the outcome of any other criminal or civil proceeding.

Policies and Procedures

Amnesty Policy

The amnesty policy allows students who are struggling in areas that may violate the values and principles of the University of the Southwest and the Honor Code to receive support and spiritual guidance through the Campus Ministry or Student Life departments by requesting amnesty and seeking restoration. The amnesty and restoration policy does not exempt students from the policies of the university, nor does it condone behavior that is immoral, criminal, or unethical.

Discipline Policy

Establishing autonomy and making decisions that reflect Christian character is a difficult and crucial part of each student's development process. Just as God disciplines those that He loves, the discipline process is designed to demonstrate love to students when they make choices that violate the Honor Code.

The discipline process at USW is a redemptive and restorative model. The purpose of discipline in the lives of students at USW is to help restore students to the community and provide accountability for individuals as they make future decisions. Student judicial issues are referred to USW's Honor Board consisting of staff, faculty, and students. The Honor's Board is charged with determining outcomes associated with student discipline.

The Director of Student Life, Director of Housing, and Residence Directors, are responsible for the administration of appropriate disciplinary measures, the administration of official grievances and complaints, and may counsel students about behavior and attitudes. The Breach in Honor Code Sheet may be obtained from the Office of Student Life and is posted on the bulletin board outside the office. Variations from the list may be made based on the combination of multiple violations and/or special circumstances.

The University of the Southwest reserves the right to dismiss any student whose conduct or academic standing is regarded as undesirable. In such cases, the fees and tuition that are due

or have been paid in advance to the University will not be remitted or refunded in whole or in part. Neither the University nor its officers shall be under any liability for such dismissal. Any student under disciplinary suspension shall relinquish all rights and privileges as a student at USW and his or her campus visitation rights may be restricted.

Anyone affiliated with the University may refer a student or student group or organization suspected of violating the Code to the Director of Student Life by submitting an incident report or contacting their Resident Assistant, Residence Director, Director of Housing, or Director of Student Life. A referral should be made as soon as possible after the alleged incident.

Upon receipt of an incident report, the Director of Student Life will contact the student(s) in question. The student(s) will receive written notification of the infraction and sign an acknowledgement stating the nature of the infraction. Depending upon the severity of the infraction, the Director of Student Life will issue a warning and counsel the student(s) involved or refer the incident report to the Honor Board. In the case of a repeated minor infraction, the Director of Student Life will refer the incident to the Honor Board. The Honor Board reserves the right to forward any case to Administration, regardless of severity of alleged offense. Any change that may result in University Suspension or University Dismissal, or which alleges any form of sexual misconduct, shall be automatically referred to Administration for adjudication.

Within thirty (30) days of receipt of a referral, the Honor Board will communicate to the Director of Student Life the results of the Honor Board's decision and any sanctions imposed. The Director of Student Life will communicate the decision of the Honor Board to the student(s) involved in writing. The thirty (30) day period for initiating a Student Conduct Proceeding shall not be jurisdictional and, if reasonable under the circumstances, a reasonable extension of the thirty (30) day time limit shall be permissible.

The student has the right to appeal the decision of the Honor Board as outlined in the Student Conduct/Disciplinary Appeals Process.

Disciplinary Measures

The following measures may be used to assist the Office of Student Life with disciplinary actions as deemed necessary. This list is not a hierarchy of discipline; therefore, a student could be subject to any of the following actions at any time. These are in line with the Discipline Guide Sheet, found in Appendix A.

University of the Southwest recognizes the need for consistency and fairness in its disciplinary procedures. Understanding that certain members of our community find themselves at varied stages of personal development and maturity, we reserve the right to consider the flagrancy of the offense in determining the appropriate disciplinary response. Behavioral expectations and policies apply both on and off campus.

NOTE: Possession as referenced in the following baseline responses is defined as anything from actual physical possession, to having these substances present in one's room, car, etc., to being part of any scenario which is not in compliance with student conduct expectations.

Having alcohol containers (empty or full) on one's person, in a residence, car, etc. is considered possession.

Individual Sanctions

If the Honor Board or Administration determines that a student has violated this Code and a sanction is imposed, regardless of severity, a letter will be placed in the student's permanent file describing the violation, finding and sanction. Multiple factors may affect the severity of a sanction including but not limited to the student's demeanor, acceptance of responsibility, and level of cooperativeness during the student conduct proceeding; the past conduct record of the student; the nature and seriousness of the incident; and the severity of the damage, injury, or harm resulting from the incident. One or more of the following sanctions may be imposed upon a student for a violation of the Code.

Disciplinary probation is typically thought of as a period of reflection during which the student should avoid future violations.
- c. **LOSS OF PRIVILEGES:** Denial of specified privileges for a designated period of time, which may include the ability to participate in sporting events, campus activities, etc.

In addition to the following sanctions, Serious Violations may result in the imposition of Minor Violation sanctions listed above as well as:

- b. **UNIVERSITY DISMISSAL:** Permanent Separation of the student from the University.

Repeated violations will result in additional sanctions with the possible end result of dismissal from campus.

Grievances, Complaints and Concerns

Purpose

The purpose of the policy is to provide a safe and organized way for students to voice complaints that they have. It is important that students have a wide-spread understanding of how to rectify situations that pertain to their experience at USW. When practiced well, the ability to biblically and respectfully resolve conflict is a restorative process for the individuals involved.

Complaint/Concern Policy

Complaints and concerns are directed to the Director of Student Life and Office of Institutional Effectiveness. All parties can use the Questions/Concerns/Comments button on the homepage or visit in person any of these two offices.

Complaints and concerns will be promptly addressed and in the absence of extenuating circumstances, a response should be provided within five working days.

Each complaint or concern received will be filed in noting the date, originator's name, a description of the complaint, the individual assigned to address the issue, assigned report date, actual report date, and file reference section. Where possible a copy of the written complaint/concern document should be filed in the Office of the Supervisor of Student Life & Housing and the Office of Institutional Effectiveness.

Questions, Complaints, and Concerns Process

The purpose of this policy is to provide a safe and organized way for students to voice complaints that they have. It is important that students have a wide-spread understanding of how to rectify situations that pertain to their experience at USW. When practiced well, the ability to biblically and respectfully resolve conflict is a restorative process for the individuals involved.

The University of the Southwest values the process of resolving complaints that may arise. Seeking resolution is the conscientious response to a grievance that one may have within any community. Conflict resolution is often the necessary element to bring health back to a community. Complaints commenced through this process may bring about an inquiry and/or disciplinary action involving another member of the University community (student, faculty or staff). Student Life is committed to keeping a confidential and professional process that facilitates resolution within a safe environment, guarding against retaliation.

Steps

1. Initially, complaints should be resolved respectfully following the biblical model of addressing the person or department responsible for resolving your complaint. If you are unsure who that person is, please contact the Office of Student Life to get appropriate direction.
2. If step 1 is not successful in resolving your complaint, formal complaints may be registered with the Office of Student Life and Institutional Effectiveness. Formal complaints may be registered by downloading the complaint form located on the student life link. Please complete this form and turn it in to the Office of Student Life for the Director of Student Life. This form will be kept confidential.
3. The Office of Student Life will act as a mediator between the student and party or parties named in the complaint. After your complaint is reviewed, you

will receive a letter documenting the receipt and appraisal of your grievance from the office who is named in the document within ten days of receiving the complaint.

4. If the complaint is not resolved in steps 1-3, the Director of Student Life will determine if any further actions are required from the University in order for resolution to be made.

Students should seek resolution of complaints with the other party or parties involved. When unable to reach a resolution, students should register complaints, in writing, with the Director of Student Life.

In accordance with the new Federal Program Integrity Rules effective July 1, 2011, the New Mexico Higher Education Department (NMHED) will review complaints which were unable to be resolved through the institution's internal complaint process.

Student Conduct and Disciplinary Appeals Process

Any student charged with a violation of the Honor Code has the right to appeal if at least one of the following conditions are met:

- The disciplinary actions are arbitrary or unjustified and the student can provide reasonable evidence to substantiate that claim.
- There was substantially prejudicial failure to follow written procedures.

Appeals not following the proper steps and procedures will not be recognized. For students who are 18 years or older, it is the policy of the University of the Southwest to address all issues with the student first in an effort to treat the student as an adult. It is up to the discretion of the Honor Board as the appellate body to grant a meeting with parents or guardians who request a meeting. Such meeting will not serve as a negotiation. Rather, any conference

grants will focus on how to best facilitate restoration for the student into the USW community.

The focus of a Student Conduct Proceeding is to determine whether the accused Student has engaged in conduct that violates the Honor Code. Student Conduct Proceedings will not be governed by legal rules of evidence and deviations from the procedures prescribed in the Honor Code will not invalidate any sanction decision or outcome, unless the deviation results in significant prejudice to the Student's right to receive reasonable notice of the charges against the student and the right to respond to the charges.

Process for Appeal

Please note: The Honor Board serves as the appellate body in the appeals process. If any of five members of the Honor Board are unavailable due to scheduling conflicts, the Honor Board may convene for the purposes of an appeal hearing with a minimum of three members or with designees for the absent members.

1. A student must submit his or her appeal in writing to the Director of Student Life. The grounds for appeal must be clearly stated and will be reviewed by the Chairperson for the Honor Board. This appeal must be made within ten (10) calendar days of the original discipline decision.
2. If the appeal is deemed legitimate, the Honor Board will convene to hear the student's appeal. If the student is unavailable or chooses not to attend the meeting, the Honor Board may rule without the student present. If the grounds for the appeal are deemed insufficient, the chair of the Honor Board will notify the student of the decision.
3. All materials to be present at the appeal must be submitted to the Director of Student Life twenty-four (24) hours in advance of the appeal meeting. Each Honor Board member will receive a copy of all material to be considered.
4. All appeals beyond the Honor Board must be made within seventy-two (72) hours of the decision initial response to the appeal.
 - The Honor Board serves as the official appellate body for all disciplinary action. The committee consists of three faculty/staff members, the President or Vice President of the Student Government Association, and one student-at-large elected by the staff. The Chair of the committee will be one of the three faculty/staff members as appointed by the Administrative Team. In all cases of disciplinary action, those who have directly participated in the disciplinary situation, including the Director of Student Life, may participate in committee discussion but may not act as a voting member. If an appeal is made in between semesters, the Provost and his appointed representatives will serve as the appellate body.
 - The Judiciary Committee consists of the Administrative Team members and serves as the final appellate body of disciplinary actions. Appeals to Judiciary Committee must be made within 72 hours of the decision made

by the Honor Board. The Judiciary Committee will meet with the student at their discretion.

Please note: It is inappropriate for students appealing decisions to approach members of appellate (Honor Board or Judiciary) committees regarding the conduct issue in question.

- Provost has the authority to administer all disciplinary measures to students.
- Housing Director and Director of Student Life have the authority to administer some disciplinary measures to students.

Residential Life

Mailboxes for students living on campus are located at the west entrance to the Bill Daniels Campus Center. PLEASE remember that mailboxes will not be opened for the student. You must retrieve your own mail by using the combination assigned to you.

Packages

When a student receives parcels too large to fit in the mailbox, the student will have a pickup notice placed in their campus mail box, to stop in at the Mailroom window for his/her package. Students may present their package notification slip and sign for his/her package. Packages not claimed after ten working days will be returned to sender. Parcels may be picked up any time during University Mailroom hours.

Students and visitors are expected to cooperate with campus security.. To report a crime or an emergency, dial 911. For a non-emergency situation or to get assistance entering a building, please locate a security officer.

Also, I would recommend also specifically listing the “Mental Health Crisis Management Plan” on the Table of Contents so it can be easily found.

Additional University Policies

Hazing

What is Hazing?

Simply defined, hazing includes any act that threatens or inflicts physical, emotional, or psychological pressure or injury on an individual or that purposely demeans, degrades, or disgraces an individual. Those found hazing will face strict disciplinary action that may result in expulsion from University of the Southwest. Failing to intervene may also violate this policy.

Title IX: Sexual Harassment, Sex and Gender Discrimination, Domestic and Dating Violence, Sexual Assault, and Stalking

USW strives to provide the education and resources necessary for members of the campus community to make informed decisions regarding personal and professional relationships and the possibility of sexual harassment, gender discrimination, domestic and dating violence, sexual assault, and stalking behaviors. This may include educational programming, distribution of printed material, and referrals to outside agencies for support and assistance.

Title IX Policy Statement

University of the Southwest is an institution built upon integrity, trust, respect, support, and acts of service. In line with these values, USW is committed to providing a safe and non-discriminatory academic, athletic and work environment for all members of its campus community. USW does not discriminate on the basis of sex or gender in any of its programs or activities.

To that end, this policy strictly prohibits gender discrimination, sexual harassment, bullying and intimidation and the crimes of domestic violence, sexual assault, and stalking as defined under New Mexico state law (N.M. Code Ann. § 30) and Title IX of the Education Amendments of 1972.

Such prohibited behavior also requires the University to fulfill certain obligations under the Violence Against Women Reauthorization Act of 2013 and the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act (Clery Act).

The University prohibits sexual assault, sexual exploitation, intimate partner violence, stalking, sexual or gender-based harassment, complicity in the commission of any act prohibited by this policy, and/or retaliation against a person for the good faith reporting of any of these behaviors or participation in any investigation or proceeding under this policy. These behaviors undermine the character and mission of USW and will not be tolerated.

USW adopts this policy with a commitment to:

- (1) eliminating, preventing, and addressing the effects of sexual misconduct;
- (2) fostering a community of trust, in which sexual misconduct is not tolerated;
- (3) cultivating a climate where all individuals are well-informed and supported in reporting sexual misconduct;
- (4) providing a fair, impartial and judicious process for all parties; and
- (5) identifying the standards by which violations of this policy will be evaluated and disciplinary action may be imposed.

Employees or Students who violate this policy may face disciplinary action up to and including termination or expulsion. The University will take prompt and equitable action to eliminate sexual misconduct, prevent its recurrence, and remedy its effects.

“**Prohibited Conduct**” is an umbrella term used when talking about all prohibited behavior under Title IX including gender discrimination, sexual harassment, bullying and intimidation, retaliation for the assertion of rights, dating violence, domestic violence, sexual assault, and stalking.

Reporting Procedures

All forms of prohibited conduct should be reported *regardless of severity*. USW’s primary concern is safety; therefore, individuals should not be deterred in reporting even if the use of alcohol and/or drugs were involved.

USW encourages victims of sexual violence to talk to someone about what happened so they can receive support and so that the institution can respond appropriately. USW offers both *confidential* and *non-confidential* reporting options. It is important to be aware that different individuals who victims contact for assistance following an incident may have different responsibilities regarding confidentiality depending on their position.

Under New Mexico state law, some individuals (e.g., licensed counselors, psychologists or physicians) can assure a victim of confidentiality; however, any other USW employee cannot guarantee complete confidentiality, unless specifically provided by law. As is the case with all colleges and universities, USW must balance the needs of the individual victim with an obligation to protect the safety and well-being of the community at large.

****Note:** For ALL incidents/claims of **sexual assault**, the following persons will be informed **IN ORDER**:

If incident occurs *on campus outside of dorms*:

1. **Victor Hawkins, Director of Security**

2. Larry Guerrero, Provost
3. Jenelle Job, Title IX Coordinator
4. Brian Arnold, University Counselor

If incident occurs *inside the dorms*:

1. **Jessica Becker, Director of Housing**
2. **Victor Hawkins, Director of Security**
**Whoever can be reached first*
3. Larry Guerrero, Provost
4. Jenelle Job, Title IX Coordinator
5. Brian Arnold, University Counselor

If the incident occurs *after hours on campus*, persons #4 and 5 above need only be informed via email with a copy of the incident report attached for Title IX and Counseling follow-up.

Any other staff or faculty in positions of authority will be informed of the incident on a NEED-TO-KNOW basis by the Title IX office in consultation with the Provost and/or President.

If any staff or faculty becomes aware of sexual misconduct, he/she will follow the above chain for informing personnel. The persons above understand the chain to follow in informing one another of incidents of sexual assault. *This means that any other faculty or staff member need only inform person #1 (or #2 if the first contact person cannot be reached).*

For **EVERY** alleged on campus incident of sexual assault, a police report will be made. Should the victim make a report immediately following the alleged incident (up to 120 hours post-assault [Carr, 2011]), first responders will organize transport of the victim to the hospital for a sexual assault evaluation. If the student does not wish to go to the hospital, an ambulance will be called for assessment. The student then has the right to deny transport, which will be documented by USW staff.

****This will be the protocol regardless of preference, mental state, behavioral indicators or physical appearance.***

A referral will always be made to the University Counselor as soon after the incident as possible. If a report of sexual assault is first made to the University Counselor, he/she will encourage report to the Title IX office but cannot break confidentiality to do so him/herself.

Confidential Reporting Options

Confidential reporting options provide students with the ability to confidentially report and discuss an instance of sexual violence without their information being shared with others. Please note confidential reporting limits the institution's ability to respond to incidents.

Non-Confidential Reporting Options

USW and the Clery Act require all employees—excluding counselors, healthcare providers, and, in some cases, campus pastors—who become aware of sexual violence to report the incident to the USW SD and the Title IX Coordinator. The victim's name should **not** be reported without the victim's permission.

The report should include the nature, date, time, and general location of an incident. This is a limited report which includes no information that would directly or indirectly identify the victim. This allows USW personnel to track patterns, evaluate the program, and develop appropriate responses. Copies of reporting forms can be found below:

- [Complaint Record](#)
- [Witness Statement](#)

When an incident of sexual violence is reported to a “*responsible employee*,” the reporter can expect the incident will be reported to the Title IX Coordinator and the Dean of Students. A responsible employee must report all relevant details about the alleged sexual harassment, sexual violence, or stalking behaviors shared by the victim including names, date, time and specific location of the alleged incident.

To the greatest extent possible, information reported to a responsible employee will be shared on a **need-to-know basis**. A responsible employee should not share information about the victim to law enforcement.

A “responsible employee” is an employee who has the authority to redress sexual violence, who has the duty to report incidents of sexual violence or other student misconduct, or who a student could reasonably believe has this authority or duty. Examples include, but are not limited to, faculty members, advisors, coaches, staff and anyone in a supervisory role. The University Counselor is exempt from this duty to report if the claim is disclosed in the *context of a counseling session*. However, he may encourage the victim to report but cannot break confidentiality as a part of his professional obligations without his/her consent or legal subpoena.

When a victim tells a responsible employee about an incident of sexual violence, the victim has the right to expect the institution will investigate the alleged sexual violence, end any sexual violence, prevent the sexual violence from reoccurring, and educate the campus community on sexual violence.

Before a victim reveals any information to a responsible employee, the employee should ensure that the victim understands the employee’s reporting obligations and informs the victim that he/she **cannot maintain confidentiality**. Instead, he/she should be directed to the Title IX Coordinator.

If it is determined that the institution cannot maintain a victim’s confidentiality, the institution will inform the victim prior to starting an investigation. USW will remain mindful of the victim’s well-being and take appropriate steps to protect the victim from retaliation or harm. The institution may not require a victim to participate in any investigation or conduct process should he/she express discomfort in doing so. Retaliation against the victim, whether by students or institution employees, will not be tolerated and is reportable to the Department of Education under Title IX.

Reporting to the Police

USW strongly encourages individuals to report sexual violence and any other criminal offense to the Hobbs Police Department. This does not commit you to prosecute but will allow the gathering of information and evidence. The information and evidence preserve future options regarding criminal prosecution, institution conduct actions and/or civil actions against the perpetrator.

If the incident happens on campus, it can be reported to the USW SD Department at 575.942.5902 (non-emergency) or 9-1-1 (emergency). If the incident occurs elsewhere in the city of Hobbs, it can be reported to the Hobbs Police Department at 575.397.9265. If the incident takes place anywhere else, it can be reported to the local law enforcement with jurisdiction in the location where the sexual violence occurs.

Please know that the information you report can be helpful in supporting other reports and preventing further incidents.

What to do if you are a Victim of Sexual Violence

If you are not safe and need immediate help, call 9-1-1. If an incident happens on campus, call USW SD at **575.942.5902**. If the incident occurred elsewhere in the city of Hobbs, call the Hobbs Police Department at 575.397.9265.

Do what you need to do to feel safe. Go to a safe place or contact someone with whom you are comfortable. Call the New Mexico Coalition of Sexual Assault Programs at 1.888.883.8020 for advice, and discuss options for how to proceed.

Do not shower, bathe, douche, change or destroy clothes, eat, drink, smoke, chew gum, take any medications or straighten the room or place of the incident. Preserving evidence is critical for criminal prosecution. Although you may not want to prosecute immediately after the incident, that choice will not be available without credible evidence. The evidence collected can also be useful in the campus conduct process.

It is important to have a thorough medical examination after a sexual assault even if you do not have any apparent physical injuries. Medical providers can treat any injuries and provide tests for sexually transmitted diseases.

You may seek medical care at any health care facility. While in the emergency room, treatment will be provided for sexually transmitted diseases and to prevent pregnancy.

Sexual Harassment Policy Statement

Statement of philosophy. The University of the Southwest does not tolerate sexual harassment or any other type of harassment by employees, trustees, students, student workers, graduate assistants, or third parties engaged in business or other authorized activities at the University. Harassment is illegal and unfairly interferes with the opportunity for all persons, regardless of gender, to have a comfortable and productive education and work environment. University of the Southwest is committed to providing an educational and work environment free of discrimination, harassment and/or retaliation in any form.

B. Statement of prohibited conduct. Sexual harassment is any threatening, demeaning, or offensive conduct or situation that unreasonably interferes with a person's ability to perform his or her job or educational pursuits and is based on the gender of the person affected and especially including that person's real or perceived subordinate status of authority. This harassment includes, but is not limited to:

- unwelcome requests for dates with a student by an employee, student worker, or graduate assistant
- persistent requests for a date with another employee, student worker, or graduate assistant
- requests for sexual favors or acts
- continued expression of sexual interest after being informed that the interest is unwelcome
- physical contact which is unwelcome/without consent; offensive gestures or touching of another person
- displaying or possessing nude or seminude posters, photos, cartoons, or graffiti in the workplace or public place (including computers or other similar devices) that are demeaning or offensive
- unwelcome visual contact, such as leering or staring at another person or making facial expressions which are of a sexual nature, demeaning or offensive
- verbal or written comments, statements, noises, or jokes that are demeaning, humiliating, suggestive, insulting, vulgar, or lewd, and which are communicated by any means, including but not limited to, telephone, email, text message, or internet posting
- failure to provide assistance that is usual under same or similar circumstances because of a person's sex
- retaliation, retribution, or reprisals in any form or manner following complaints about harassment or requests that harassing conduct stop or after assisting a person with a complaint of harassment
- physical interference with job performance
- preferential treatment or promise of preferential treatment for submitting to sexual conduct or threat of negative treatment if a person does not submit to requests or demands for sexual conduct

The list set forth above is not intended to be, nor should it be construed as all-inclusive of prohibited acts under this policy.

- C. Scope of policy.** This policy applies to all members of the Board of Trustees, administrators, faculty, staff, employees, agents, student workers, graduate assistants, and students at all times and places in any connection with this institution. This policy applies for and to those who do business at USW. Compliance with this policy is a term and condition of employment or matriculation with this institution. The terms *employee* or *employment* include, but are not limited to, faculty, staff, graduate assistants, administrators, agents, and contractors. The term matriculation refers to students admitted to the University.
- D. Contact Persons.** Complaints of harassment may be made to any of the following persons: President, Senior Administrators, Deans, Title IX Coordinator, Director of Security, Assistant VP of Human Resources or the Director of Student Life.
- E. Procedures.** The purposes of these procedures are to provide a prompt and fair resolution of complaints and to preserve the due process rights of all involved, including the rights to receive notice of complaints and to have an opportunity for an impartial investigation. These procedures also are created to provide for corrective action for violations of this policy. However, the University may take any immediate action it deems reasonably necessary to stop harassment, and the University is not limited to the process described herein.

Any person who believes he or she has been subjected to any form of harassment and/or discrimination, and any person who witnesses or has knowledge of harassing conduct, should report that conduct to his/her immediate supervisor or any of the Contact Persons identified herein within three calendar days of the offense. Employees, student workers, or graduate assistants are not required to approach the person who is harassing and/or discriminating against them, and they may bypass any offending member of management.

The report may be oral or in writing and should provide the specific details of the behavior believed to be harassment. The Contact Person to whom the report is made will take the necessary steps to initiate an investigation of the discrimination and/or harassment claim, including completing an Intake Form.

The University will conduct its investigation of harassment claims in as confidential a manner as possible. Interviews, allegations, statements, and identities will be kept confidential to the extent possible allowed by law. However, the University will not allow the goal of confidentiality to be a deterrent to an effective investigation. A timely resolution of each complaint will be reached and communicated to the person making the complaint and the person(s) against whom such complaint is made. All reasonable attempts will be made to complete this entire process in not more than 30 days from the date of the completion of an Intake Form.

- F. Corrective Action.** When an investigation results in a determination that harassment or retaliation has occurred, appropriate corrective action, up to and including termination/dismissal will be taken promptly. The corrective action will be proportional to the severity of the conduct. A record of such corrective action shall be signed by the person subject to such action and a copy placed in such person's personnel or student file. If the harassment is committed by a third party, the University will take all reasonable steps under the circumstances to stop such harassment.
- G. Prohibition of Retaliation.** Any retaliation against a complainant or witnesses or someone who assists in investigating such complaints is prohibited specifically by this policy. If an employee, student worker, or graduate assistant believes he or she has been subjected to any form of retaliation, the

employee, student worker, graduate assistant, or student should report such conduct to his or her immediate supervisor or any of the Contact Persons within three calendar days of the offense. Employees, student workers, graduate assistants, or students are not required to approach the person who is retaliating against them, and they may bypass any offending member of management. Claims of retaliation will be investigated in the same manner as complaints of harassment, and if retaliation is found to have occurred, corrective action will be taken as described herein.

- H.** The University will provide copies of this policy to all employees, student workers, graduate assistants, and will require employees to acknowledge receipt of the policy.
- I. Training.** The University will conduct training sessions for all employees, graduate assistants, agents, supervisors, and administrators regarding this policy and regarding prevention of sexual harassment. The intent of this training is to produce an institution that is free of harassment and that provides the opportunity for everyone to reach full potential in the performance of his or her assigned job or educational pursuit.

Employee-Student Relationships

University of the Southwest is committed to creating an atmosphere of mutual trust and respect in which all members of the community can work together freely to accomplish the mission of the University. All employees must recognize that our mission is to educate and serve students. A central component of this mission is to maintain learning and work environments free from conflict of interest, harassment, exploitation, bias and favoritism.

When employees interact with students, they are in a position of trust and power. These relationships must not jeopardize the effective functioning of the university by the appearance of either favoritism or unfairness in the exercise of professional judgment. In relationships with students, the employee is expected to be aware of his/her professional responsibilities and to avoid apparent or actual conflict of interest, harassment, exploitation, bias or favoritism.

Employees, whether faculty, staff, resident advisors or graduate assistants, shall not engage in consensual romantic and/or sexual relations with students whenever the employee has a “position of authority” with respect to the student including teaching, evaluating, supervising, advising or coaching a student as part of a school program, athletic team or employment situation. These relationships are deemed “inappropriate.” Efforts by employees to initiate these relationships with students must also be avoided.

Regardless of position or contact, an employee’s professional responsibilities make it possible for him or her to influence the status or circumstances of any student; therefore, even in instances where it appears an employee does not have a direct influence over a student, inappropriate relationships are prohibited.

In the event a romantic and/or sexual relationship exists or develops between an employee and a student of the university, the following guidelines must be met:

1. The employee shall immediately report the relationship in confidence to his or her immediate supervisor who will inform the Provost;
2. The student shall report the relationship in confidence to the Provost or Title IX Coordinator (who will inform the Provost); and

3. A plan for resolving the conflict of interest will be developed wherein the supervisor and Provost shall make suitable arrangements for the objective evaluation of the student's academic performance and/or work performance for the protection of individual and university interests.

To the greatest extent possible, these discussions and subsequent plans will be held in confidence.

If an employee in a "position of authority" over a student with whom an inappropriate relationship exists or develops fails to report him/herself, it will be determined that he/she has created a conflict of interest and has violated an ethical obligation owed to students, other employees, colleagues and the university. He/she will be subject to sanctions up to and including dismissal. Similarly, a student who fails to report an inappropriate relationship with an employee in a "position of authority" may also be subject to sanctions.

Credible allegations of a faculty, staff member, resident advisor or graduate assistant's failure to report the existence of a relationship between a student and an employee compels the immediate supervisor to conduct a prompt and thorough inquiry to determine whether there is any validity to the allegation. This inquiry will be completed in consultation with the Provost and Title IX Coordinator to ensure policies under Title IX have not been violated. When it is concluded that a prohibited relationship exists, the immediate supervisor and Provost shall undertake a resolution to the conflict of interest and may impose sanctions against the employee up to and including dismissal.

Unusual Absences

Out of concern for the safety of our students, roommates/suitemates/friends are requested to report unexplained or unusual absences to the RD's.

Internet Usage Policy

Personal use of USW internet is permitted and is subject to the same standards of conduct described in the USW Student Handbook. Visiting internet sites that would conflict with University's mission as a Christ-centered institution is forbidden. Students should understand that all traffic on the internet on campus is capable of being viewed, monitored, and logged by USW. Any student who attempts to circumvent security protocols is subject to disciplinary action.

USW Graduate Assistant Position Policy

USW Graduate Assistant Position students are enrolled in at least half-time graduate studies per term in a USW Graduate School Program and assigned to learn from and assist with activities coordinated by a University employee in their assigned work area within the designated department. This position is only available for the Fall and Spring terms. Graduate Assistants are expected to review, sign, and follow the USW's Sexual Harassment Policy which is attached. **Failure to comply with USW's Sexual Harassment Policy may result in serious consequences including loss of stipend and/or termination.**

USW Graduate Assistant Positions are classified as Graduate Work Study positions. Funding for approved stipend awards for these positions is supplied from the institutional aid fund for work study. USW Graduate Assistant Positions will receive a Graduate School Tuition Waiver for the number of credit hours enrolled and a

\$5,500 work stipend (pending funding availability) for a 10 month period from August 1st-May 31st of each academic year. USW Graduate Assistants may not exceed 20 hours of compensated work each week during their time of service in this role.

The rate of pay for approved USW Graduate Assistants will be \$8.00 per hour. Graduate Assistants will not be allowed to work more than twenty (20) hours per week. Each Graduate Assistant will be required to submit work study timesheets to the Director of Payroll for payment. Tuition waived in these cases should not likely result in any taxable benefits and those Graduate Students within this program will not be permitted to acquire more aid from the institution and other sources than exceeds their financial need as determined by the Financial Aid Office.

Selected candidates will be required to have earned an undergraduate degree from an accredited four year University or College, have gained admittance into a USW Graduate School Program and enroll in a minimum of 3 USW Graduate School credit hours per term. Candidates must maintain a 3.0 GPA in order to receive the Graduate School Tuition Waiver and/or work stipend.

Each department hiring a GA must transfer funds (\$5500) to Financial Aid to offset institutional work study for each position approved. Each GA must maintain required satisfactory academic progress as defined in Federal Financial Aid regulations to remain eligible as a GA.

Only one (1) Master's Degree may be obtained utilizing USW's GA policy. All awards in total cannot exceed the cost of attendance, so once the stipend is added, the amount of loans the student qualifies for may have to be reduced.

Emergency Evacuation Procedures

Fire Evacuation Procedure

When a fire alarm sounds:

- Close room windows and doors and proceed away from fire.
- Stay low to the ground and calmly proceed to the nearest exit.
- Move to a safe distance away from the evacuated building (directly to the designated meeting spot).
- If your door is hot, do not open the door. Instead, follow this procedure:
- Seal up the cracks around the door using cloth articles. This helps seal a barrier against heat and smoke.
- Hang a sheet out the window to signal rescuers.

- Wait to be rescued and/or if possible, evacuate to safe area.

If you must move through a smoke-filled area, move quickly in a crouching position with face covered.

Fire Drills

We will schedule periodic fire drills in each residence hall throughout the year that comply with directions given during drills and display a responsive attitude. Do not remain in the hall when a general alarm sounds; to do so violates expected conduct and subjects you to disciplinary action.

Please see Fire Safety Report, located on USW website under consumer information.

Tornado Alert Procedures

TORNADO WATCH means there is a possibility of one or more tornadoes in our area.

Continue normal activity but “be on the watch.” TORNADO WARNING means a tornado has been sighted or detected by radar, and may be approaching. The civil service siren will sound with a single continual signal. When you hear this, seek shelter immediately.

Tornado Shelter/Safety

Move to an inner room or hallway on the lowest level of the building you are in, stay away from windows, and cover yourself with a blanket or other object if possible. Stay in the safety area until the tornado warning is lifted. When possible, Resident Assistants are to help the Resident Directors move everyone into a safe area.

Executive Summary

University of the Southwest (USW) is committed to providing a safe environment for all visitors, staff, faculty, and students. This Emergency Management Plan is intended to highlight potential areas of risk and vulnerability to campus personnel and facilities. The purpose of the plan is to enable all persons who might be present at USW during an emergency to remain calm and to render aid if needed based on known facts. In addition, USW will:

- Identify potential building and equipment areas of risks
- Analyze those risks
- Eliminate or minimize the risk
- Actively plan and prepare to respond to emergencies
- Train response teams
- Prepare vital services restoration in cases of emergencies

The following assumptions pertain to this plan:

- A disaster may occur with little or no warning and may escalate far more than the ability of any single local response organization to handle
- Most students, faculty, staff, and visitors will have a basic awareness of disaster preparedness and seek additional information when disaster threatens
 - The Hobbs Fire Department will be available for a campus emergency
 - The Lea County Sheriff's Department will be available for a campus emergency
 - The Hobbs Police Department will be available for a campus Emergency
 - USW's phone systems will be operative in most emergencies
 - e2Campus will also be operative in most emergencies

A. Purpose

The plan establishes a framework for an effective system of emergency management. The purpose of the Plan is to:

1. Reduce the vulnerability of students, faculty, visitors, and staff at USW to damage, injury, and loss of life and property resulting from natural, technological, or man-made emergencies, catastrophes, or hostile acts or actions.
2. Prepare for prompt and efficient response and recovery to protect lives and property affected by emergencies.
3. Respond to emergencies using all systems, plans, and resources available to preserve the health, safety, and welfare of persons affected by the emergency.
4. Recover from emergencies by providing for the rapid and orderly start of restoration and rehabilitation of persons and property affected by the emergency.
5. Provide an emergency management system embodying all aspects of pre-emergency preparedness and post-emergency response, recovery, and mitigation.

B. Scope

1. The plan establishes fundamental policies, program strategies, and assumptions.
2. The plan establishes a concept of operations spanning the direction and control of an emergency from initial monitoring through post-disaster response and recovery.
3. The plan defines an interagency coordination mechanism to facilitate direction, control of response, and recovery assistance from other governmental and volunteer entities.
4. The plan assigns specific functional responsibilities to key personnel.
5. The plan addresses the various types of emergencies which are likely to occur, including minor, major, and catastrophic disasters.
6. For each magnitude of event, the plan identifies actions that response and recovery organizations will undertake in coordination with state and federal counterparts as appropriate.

C. Methodology

The USW Emergency Management Committee uses generally accepted management Principles and practices for emergency management initially developed and updated from San Juan College and NMJC. The plan incorporates formatting and planning elements derived from

Federal Emergency Management Agency documents. The plan will be offered for review to University of the Southwest's Board of Trustees, Lea County Sheriff's Office, Hobbs Fire Department, City of Hobbs Police Department, and New Mexico State Police.

SPECIFIC EMERGENCY/DISASTER

PROCEDURES A. General Principles

Each emergency situation is different and general procedures and guidelines will be established to provide a response to all emergencies. The procedures set forth in the following pages will be followed in all instances.

1. Protection of lives is the highest priority in any emergency. Common sense and safety of persons involved should always prevail.

2. Once the safety of persons has been ascertained, the protection of property will be assessed.
3. The information needs or demands of those who will converge on campus as a result of an emergency or disaster will be recognized and responded to in a timely fashion to control rumors which may develop.
4. Communications and the release of information to personnel on campus will be handled before communication to external sources.
5. Only the President or the designee will handle communication to all media. Staff should refer all inquiries to the President or designee.
6. All errors in communication will be corrected, rumors challenged, and misperceptions addressed by the President. Legal questions will be directed to legal counsel.

B. Bomb Threat

1. Bomb threat calls may come to any office on campus. All such calls must be considered real until proven otherwise. The most important elements in a bomb threat situation are information and communication. Secure as much information from the caller as possible.

Everyone should assist the Security Office when a bomb threat is made. This can be done by:

Make note of the following:

- Exact time of the call
- Exact words used
- Sound of the caller's voice—sex, age, speech pattern, accent, volume, excited/calm, angry/sad, slurred/clear speech.
- Caller reading from a note?
- Was there any indication why the bomb threat was given?
- Any background noise? Music, cars, other people?
- Ask where the bomb is located

2. Immediately after the call, notify Security. At that time, security shall notify the President of the University. The President or the Vice President for Academics will specify the proper course of action. Security will notify local law enforcement and the Hobbs Fire Department.

3. If an evacuation is ordered, the Evacuation Plan will be implemented.

- a. The decision to evacuate the entire campus or just a specific building shall rest with the Vice President for Academics, or the President of the University.
- b. The switchboard operator will be notified if during normal hours of operation.
- c. He/she shall contact the other phone clusters to implement the Evacuation Plan or a limited evacuation plan.

4. Employees are not to touch, handle, move, or otherwise disturb any unusual container, box, package, or any article unfamiliar to them or suspicious in nature. Security will make sure all individuals understand this and ensure the compliance is followed.

5. If the caller indicates there is some time before the bomb will explode, law enforcement will take charge of the situation and may search the area.

6. Doors to campus building shall be left open and unlocked. Security will caution persons evacuating USW to pay particular attention to emergency vehicles entering the campus.

C. Civil Unrest

The rise in recent years of riots and disturbances on university campuses demands quick, efficient, decision making and action. This leadership falls on the Emergency Management

Committee when a situation of civil unrest arises. The Emergency Management Committee will meet to begin the process of investigation and develop an action plan. The following steps should be considered.

- Analyze reports of prior incidents on campus. Ask questions of all involved parties to determine the real issues at the root of the disturbance. Involve minority community leaders if appropriate.
- Care should be exercised not to say or do anything to make the incident too difficult to achieve a sense of community. Appeal to the reasonable majority.
- Don't make promises we are unable or don't intend to keep.
- Senior administrators need to be visible on campus. Forums are good avenues for discussion of relevant issues.
- Actions should be consistent with promises. The President will assign an arbitrator if necessary.
- Law enforcement will be called immediately if violence occurs or appears imminent. Negotiations may begin after violence ends.
- Any student's use of violence toward another student or staff member will be prosecuted to the fullest extent of the law.
- Videotape is crucial for future use if possible. Care should be exercised by the person videotaping to avoid conflict with participants in the unrest.

D. Death /Suicide/ Murder on Campus

Death can occur unexpectedly and in various manners. If a death occurs on campus, the following process will be implemented to insure proper procedure is followed for an investigation:

- Upon discovery of any death on campus, immediately call (911) and advise authorities of the death. Take all precautions to preserve the immediate area around the body. Limit any entry into the site unless providing life-saving functions.
- Immediately call Security. Security will secure the scene, and no unauthorized personnel will be allowed into the area. Security will maintain the scene until law enforcement arrives at which time the investigation will be turned over to proper authorities

- Any death occurring on campus will be considered a homicide until the investigation reveals otherwise; this necessitates the preservation of the physical evidence left at the scene.
- Security will notify the President of the University, the Vice President for Academics, the Supervisor of Student Life & Housing, as quickly as possible. Other officials of the University will be notified at the President's request.
- The Supervisor of Student Life & Housing will immediately notify the Mental Health Crisis Team and the Campus Minister to schedule a campus-wide Critical Incident Debriefing.
- In the event death occurs in the residence dorms, the Director of Housing will be notified.
- The crime scene is to remain as undisturbed as possible, and Security is responsible for any crowd control. Witnesses will be asked to remain on site to assist with the investigation.
- The Vice President for Academics will coordinate any efforts needed to notify parents, family, roommates, co-workers, etc. Coordination with law enforcement in the notification process is stressed.
- The Director of Public Relations will work with the Vice President for Academics and the Supervisor of Student Life & Housing to coordinate all information with the media after approval by the President.
- The Vice President for Academics will contact the Director of Housing, Registrar and the CFO to ensure all paperwork normally sent to the student's residence or family is stopped until authorization from the President's Office.

E. Earthquake

Earthquakes occur without warning, and employees should leave all structures and move to outside areas.

- If you are inside, duck or drop down to the floor and take cover under a sturdy desk, table, or other furniture. Hold onto the furniture and be prepared to move if the furniture slides. Remain in your location until the ground stops shaking and you feel safe to move.
- If outside, move to open areas away from buildings. Stay away from overhead power lines or poles. Caution should be exercised as glass may fall from elevated windows
- If driving, stop where safe and remain in your car away from bridges, overpasses, and tunnels. Move your car as far out of the normal traffic pattern as possible and avoid trees, light poles, power lines, or large signs.
- As the shaking stops, the Vice President for Academics will determine the proper course of action. The Evacuation Plan will be implemented if needed.
- Security and emergency personnel will begin immediately searching for injured or trapped individuals.
- Check for fire hazards immediately after the earthquake. Gas leaks are possible immediately after the quake. Maintenance will shut off the main gas valve only if a leak is suspected or identified. The Gas Company will turn the gas on once damage is repaired.
- Stay away from downed power lines even if power appears to be shut off.
- Remember displaced objects may fall when you open the door.
- Check to make sure your telephone is on the receiver as phones off the hook will tie up the network unnecessarily.

- Any suspected hazardous material leaks or spills should be cleaned up by trained and protected individuals.

Note: After-shocks could be as dangerous as the initial quake; therefore, keep non-emergency personnel out of structures until damage has been thoroughly evaluated.

F. Explosion

Whether an explosion is the result of an industrial accident, sabotage, or reaction to a preceding disaster,

University staff should be prepared to deal with the danger and property loss expected as a consequence. In the event of an explosion, whether deliberate or accidental please follow these procedures.

- University staff calls (911) and Security immediately.
- Assist medical response teams with survivors as needed.
- Security and emergency personnel will begin immediately searching for injured people and those who may have been trapped by the debris. They must be aware some buildings or structures may have become weakened from the explosion. Additional hazards for the potential rescuer could exist.

- In the event an evacuation is ordered, the Evacuation Plan will be implemented. The decision to evacuate the entire campus or just a specific building shall rest with the Vice President for Academics or the designee. The switchboard operator will be notified during work hours and will contact other buildings to implement the plan. The Emergency Phone Warning System will also be utilized for communication purposes.
- Special care should be undertaken to prevent unauthorized personnel from entering the explosion site.
- The President or the designee will facilitate communication with the media. Staff should refer all inquiries to the President or the designee.
- Any errors in communication will be corrected, rumors challenged, and misperceptions addressed by the President. Legal questions will be referred to legal counsel.
- Immediately after the crisis, the Emergency Management Committee will initiate an evaluation process of the situation and the University's response to the emergency. Recommendations will be made and implemented to correct deficiencies.

G. Fire

Staff should know the location of fire extinguishers, fire exits, and alarm systems in each area of the campus.

Faculty should address emergency procedures through their syllabi. Please note:

- Faculty will monitor the evacuation of their class. After evacuating the building, faculty will lead students to safe areas outside the buildings. If evacuation is required, Security will direct the order of the evacuation.

- If a door feels warm to the touch, **DO NOT OPEN THE DOOR**. In the event of heavy smoke, stay near the floor and breathe through a piece of clothing. Smoke is the greatest danger in a fire, so stay near the floor where the air is less polluted.
- When outside buildings, maintain a distance of at least 200 feet from the building. Keep streets, fire lanes, hydrants, and walkways clear for emergency vehicles and crews.
- Do not return to an evacuated building unless told to do so by Security.
- Due to our location, grass fires are likely at times. Call (911) and Security in these instances.

- If no threat exists, Security will contact the person and advise them of the campus policy concerning firearms on USW property. If access to the firearms is not restricted, the firearms will be confiscated by Security and delivered to the Vice President for Academics. Security may also escort the individual off campus and submit a written report to the Head of Security and the Associate Vice President for Academics for Student Live. If the individual refuses to exit campus, Security shall call law enforcement and maintain sight of the individual until law enforcement arrives to secure the situation.

- Security will also contact the Head of Security and the President of the University or designee. Either the President or designee will determine if buildings or a campus-wide evacuation is deemed necessary, the campus evacuation plan will be implemented.
- If necessary, maintenance workers will close all ventilation to buildings.

Off-Campus

When informed of potential hazardous spills off-campus impacting the safety and security of students, faculty, and staff, the President of the University or the Vice President for Academics will meet and decide on a course of action. Should evacuation become necessary, the campus evacuation plan will be implemented.
